

# Agent to agent transfer bug fix for customers using speech analysis

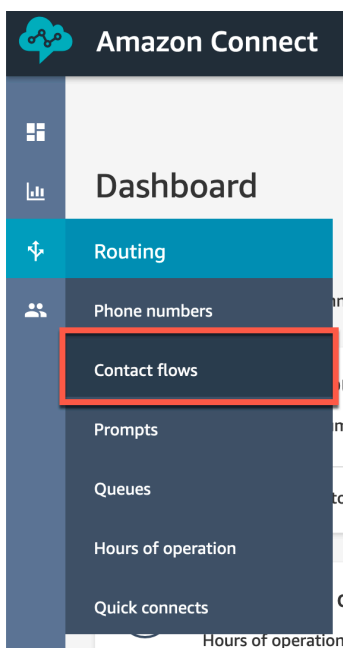

This document details the list of steps you must follow in order to get the agent to agent bug fix working in your environment. Please note these steps only apply to customers who have speech analysis enabled in the app.

## Import the agent transfer flow

Right click on the below agent transfer flow link, click *save link as* and save the file to your desktop.

- [Zendesk\\_AgentTransfer](#)

In your Connect instance, click on *routing* on the left hand navigation bar and select *contact flows*.

Click on the dropdown and select *create transfer to agent flow*.
